

## Batch Controlling for 1- and 2-stage batch systems

*Reduce spills and leakage*

*Increase process efficiency*

*Slow down delivery before end-of-batch (2-stage)*

When repetitive dispensing of liquids is an essential part of your production facility, Fluidwell is your best choice for reliable and accurate batch control instrumentation. Our various solutions will increase process efficiency, improve accuracy, simplify repeating batches, and reduce spills and leakage

### Batch control benefits

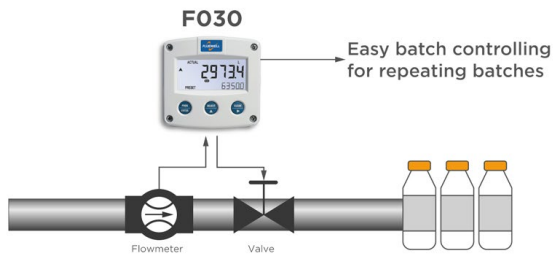

- Accurate repeating batches.
- Improve accuracy: Slow down delivery before end-of-batch (2-stage).
- Sustainable: Reduce spills and leakage.
- Increase process efficiency.
- Easy adjustable batch sizes.
- Remote controlling from process control panel.

### Fluidwell products features

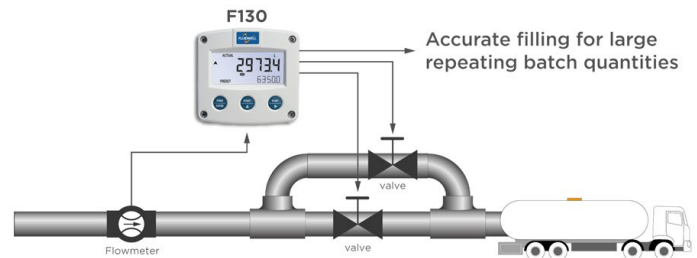

- Robust by design.
- Resistant to harsh conditions.
- Compatible with any flowmeter type & brand.
- Easy to operate.
- Heavy duty, relay outputs for electronic valve control.
- Remote control inputs.
- Hazardous area approvals.
- Weights & Measures approvals.
- Modbus Communication.
- Ticket printing.
